*Kaimur, Bihar*

**Paradise Children Academy — Secondary (10th), BSEB** *2021*
*Lalapur (Kudra), Bihar*

## TECHNICAL SKILLS

**Programming Languages:** JavaScript (ES6+), Java
**Frontend:** HTML5, CSS3, React.js, Angular, Tailwind CSS, Responsive Web Design
**Backend / Database:** Node.js, Express.js, REST APIs, MongoDB, Socket.io, JWT
**Tools & Cloud:** Git, GitHub, Oracle Cloud Infrastructure, VS Code, Postman
**Concepts:** OOP, Component-Based Architecture, AI/ML Integration, Geospatial Queries, Agile Development

## EXPERIENCE

**Web Development Intern — Infotact Solutions** *May 2026 – Jul 2026*

- Completed a hands-on internship in web development, building and delivering practical solutions as part of a structured, industry-supported training program.
- Collaborated with mentors to develop and refine solutions, demonstrating consistent dedication and outstanding execution throughout the internship.

**Frontend Development Intern (Virtual) — CodeAlpha** *Jan 2026 – Feb 2026*

- Participated in a virtual internship program focused on frontend development, completing assigned tasks with consistency and dedication.
- Applied core frontend concepts and best practices to deliver task-based project work within the program timeline.

## PROJECTS

**SmartHire.ai — AI-Powered Resume Screening & Candidate Verification Platform**

- Built an AI/NLP platform enabling HR teams to bulk-upload resumes and screen candidates against configurable criteria — skills, experience, education, certifications, and location.
- Extracted key resume information using AI and NLP, matching candidates against requirements to generate a comprehensive suitability score.
- Identified missing skills and detected duplicate or suspicious resumes, providing transparent, explainable recommendations and candidate rankings.
- Reduced manual screening effort and improved consistency, supporting faster, data-driven hiring decisions.

**Home Service Booking Platform (Urban Company Clone)** — *React.js, React Router, Context API*

- Developed a full-stack booking platform connecting customers with verified professionals for plumbing, electrical, cleaning, appliance repair, and beauty services.
- Implemented secure authentication, service booking, equipment rental, and real-time booking tracking for a seamless end-to-end experience.
- Integrated online payments, wishlist management, live chat, and multilingual support to improve customer engagement and usability.
- Built role-based dashboards for customers, service providers, and administrators to streamline service management and booking operations.
